Angel on a Leash

Therapy Dogs and the Lives They Touch

David Frei

David Frei, the voice of the Westminster Kennel Club and the founder of Westminster's therapy dog charity, Angel On A Leash, along with his wife Cheri, a minister at Morgan Stanley Children's Hospital of New York-Presbyterian, retells heartwarming stories of therapy dogs that change the lives of needy children, adults, and seniors at hospitals and rehabilitation centers.

About the Author: David Frei is well known to millions of television viewers as the longtime co-host (21 years) of the popular Westminster Kennel Club Dog Show in February.

In connection with that role, he has made many appearances on *The Today Show*, *Good Morning America*, *The Early Show*, *Ellen*, *The View*, *Martha Stewart*, *Charlie Rose*, and more. He has been director of communications for the Westminster Kennel Club since 2003. David also has been co-host on NBC of *The National Dog Show* on Thanksgiving Day since its inception, a telecast seen by about 20 million viewers every year.

With Westminster, David helped to create Angel On A Leash, a charitable activity supporting therapy dog programs at health care facilities around the country. David is an active volunteer as well, visiting each week with his two Brittany's and his Cavalier at Memorial Sloan Kettering Cancer Center and the Ronald McDonald House of New York. He is a member of the Sports Council of the St. Jude Children's Research.

"Angel on a Leash will make you smile and cry and appreciate the great things that our dogs do for us and for people in need. My longtime friend David Frei has written a heartwarming book about his work with therapy dogs and the human-animal bond. So read, put the book down, hug your dog, and repeat, again and yet again. I love it and so will you! You will want to reread this one."

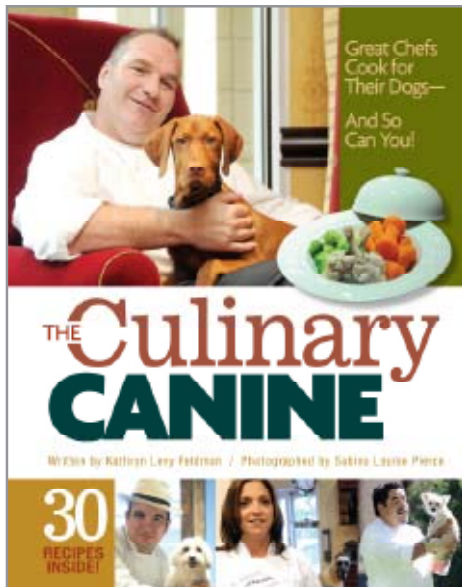

- Betty White

"Therapy dog work helps you and your dog teach one another and learn from one another. David Frei's Angel on a Leash is a terrific lesson in how that happens. David and his dogs love and trust each other, and this has enabled him to make it his life's work to share hope with people in need. It has also given him many wonderful stories to share with us in this heartwarming book. I couldn't put it down."

- Cesar Millan
The Dog Whisperer

"When a dog wags his tail, it is connected to his heart. When David tells these stories of the dogs he has known and the good that they've done, they are connected to his."

What Color Is Your Dog?

Train Your Dog Based on His Personality "Color"

Joel Silverman

Famed Hollywood dog trainer Joel Silverman presents his revolutionary new color-coding technique to recognize and enhance dog behavior. Dogs naturally run the gamut from "blue" timid dogs to "red" hyper or out-of-control dogs. The goal is to use positive training techniques to move dogs closer to the middle "yellow" for the ideal balance of confident, relaxed behavior. This book is entertaining, informative, and easy to read, and best of all, these color-coded techniques really work.

Training Solutions for Rescued Dogs

Joel Silverman

The old rules don't always apply to adopted dogs, whose past training and behaviors may be a complete mystery. In *Take 2*, Joel Silverman assesses the special needs of rescued dogs and covers training methods that really work for dogs that hail from animal shelters, breed rescue programs, and humane societies.

About the Author: Joel Silverman has more than thirty years of experience training animals for the camera and appearing on camera himself to present expert training techniques. A former host of *Good Dog U* (Animal Planet) and a frequent guest of popular talk shows and news programs, Joel has built a reputation for animal-training excellence. His trainees have ranged from killer whales to every dog breed imaginable, large and small. Joel lives in Orange County, California.

Honey Bee Hobbyist

The Care and Keeping of Bees

Norman Gary, PhD

Beekeeping isn't just for the professional farmer; honey bees can be kept by any aspiring hobbyist, whether his or her property has large tracts of land in the country or a simple backyard patio and garden in the suburbs. This colorful book, which includes entertaining and informative chapters on the history of bees and the current methods and techniques of amateur beekeeping, serves as an extensive introduction to help novice beekeepers fully understand this surprisingly easy and exciting hobby!

About the Author: Norman Gary has a PhD in apiculture (the scientific study and management of honey bees), a rare degree in the field of entomology. Norman has published over 100 scientific papers and contributed to four books. Since the 1960s, he has also been a "bee wrangler," training his favorite insect to perform in action scenes in eighteen movies, appeared as a guest in more than seventy television shows, and has done six commercials with bees. He holds two Guinness World Records for bee stunts, invented a patented bee apparatus, and developed the "Thriller Bee Show" that has been performed at fairs, festivals, and other events.
