### Stealth Fighter

A Year in the Life of an F-117 Pilot

Lt. Col. William B. O'Connor, USAF (ret.)

The F-117 Stealth Nighthawk was a truly groundbreaking aircraft when introduced in the early 1980s. The strange shape of the jet, all flat panels and angles, rendered the aircraft nearly invisible to radar. Brad O'Connor flew the Nighthawk during the NATO bombing campaign over Kosovo in 1999. His first-person experience puts the reader in the cockpit of this revolutionary combat aircraft. From his F-117 assignment through training, deployment, mission planning, and combat flights, O'Connor relates the day-to-day life of a pilot in the world's first stealth fighter.

### B-52 Stratofortress

- The B-52 Stratofortress is the longest serving aircraft in the current U.S. Air Force inventory and is slated to continue service through 2040.
- Covers the development and manufacture of the B-52, in addition to its combat service.
- The author is a well-known military historian and author of several combat aviation books.

### Stealth Fighter

- The first complete pilot's account of flying stealth sorties in the Kosovo War, including the first and only time an F-117 was shot down by enemy fire.
- The rise of the Predator and other unmanned aerial vehicles brings out the "romance" of the age of piloted fighter planes, with the F-117 being a modern classic.
- Aviation aficionados will enjoy this chance to "fly" the F-117, put into the cockpit with first-person stories.

"For anyone who has ever wondered what it's like to fly the SR-71 on a secret Mach 3 reconnaissance mission, *Flying the SR-71 Blackbird* has the answer."

— Pacific Flyer

See Page 2

### Flying the SR-71 Blackbird

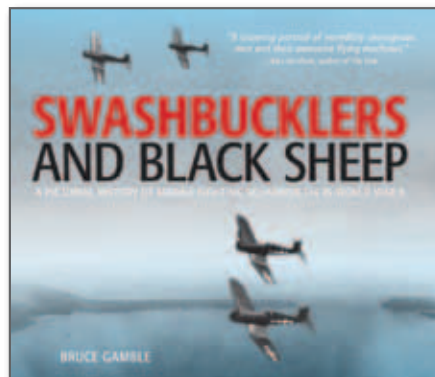

- The larger airshows like Oshkosh attract attendance of more than 700,000 each year.
- The first book to take readers step-by-step through a typical classified SR-71 mission.
- Written by possibly the world's foremost expert on piloting the Blackbird.

See Page 3

### Unblinking

- Unprecedented access provides rarely seen units deployed overseas and here in the US.
- Stunning aerial images and insightful writings by front line operators and policy chiefs.
- In depth discussion of pros and cons of the use of unmanned aircraft both for reconnaissance and for tactical offensive attacks.

"When we're still learning things about the Civil War 150 years later, it should be little surprise to find new material from World War II. But Bruce Gamble's fabulous treatment of the Black Sheep sets a new standard for 'above and beyond' his previous definitive treatments of VMF-214. Combining insightful text with a fabulous collection of photos and high quality art, this book raises the bar in a field that routinely sees new material and fresh interpretations. An absolute treasure."

— Barrett Tillman, author of *Enterprise: America's Fightingest Ship and the Men Who Helped Win World War*

See Page 8

### Swashbucklers and Black Sheep

- The Black Sheep are World War II's most famous combat aviation squadron.
- This is the first illustrated history of the Black Sheep.
- Author Bruce Gamble is a recognized authority on the Black Sheep and their charismatic World War II commander Greg "Pappy" Boyington.

## The German Aces Speak

World War II Through the Eyes of Four of the Luftwaffe's Most Important Commanders

Colin D. Heaton and Anne-Marie Lewis

For the first time in any book, four prominent German fighter pilots reminisce candidly about their service in World War II. Although all were decorated by the Third Reich, they did not follow the Nazi Party without question, and elected to follow their own code of honor in combat. In the end, they felt that they and their countrymen had been betrayed by Hitler and the Nazis.

## The Me 262 Stormbird

From the Pilots Who Flew, Fought, and Survived It

Colin D. Heaton, Jorg Czipionka and Barrett Tillman

The Me 262 was the first of its kind, the first jet-powered aircraft. Told largely in the words of the German aces who flew it, *The Me 262 Stormbird* provides the complete history of this remarkable airplane from the drawing boards to combat in the skies over the Third Reich. Features two forewords, one by Jorg Czipionka, Me 262 night fighter pilot, and another by historian and author Barrett Tillman.

### Vintage Aircraft Nose Art

Gary Valant

Applied by amateurs or professional artists like Vargas, the unique art that graced military aircraft in World War II and the Korean War typically featured alluring women whose charms belied the deadly cargo the crew hoped to deliver to its targets. Hundreds of examples are shown in a combination of archival photos from the wars and current photos of artwork in museum collections.

### Warbird Legends

- Represented in this splendid volume are images of the war's 20 greatest aircraft - from the legendary Mustang, Spitfire, Flying Fortress, and Mitsubishi Zero, to lesser-known but equally awe-inspiring warbirds like the Mosquito, Blenheim, and Kingcobra.
- The award-winning air-to-air photography of John Dibbs captures immaculately restored aircraft and is complemented by a selection of archival, frontline images illustrating the true spirit and humanity of these Flying Legends.
- John M. Dibbs spent his childhood near old RAF Command Airfields. His natural interest in aviation has led to a diverse portfolio, and this collection represents his favorite images of World War II aircraft.

### The Me 262 Stormbird

- The Me 262 was the world's first operational jet fighter and is one of the most important aircraft of World War II.
- Told largely in the words of German fighter aces who flew the Me 262.
- Includes first-person accounts of American pilots who flew against the Me 262, including several who were able to shoot it down.

### Hell Hawks!

- Robert F. Dorr writes a weekly column for the *Air Force Times* and Thomas D. Jones is a well-known former NASA astronaut who flew four space shuttle missions.
- Little has been written about American fighter-bomber units in World War II. *Hell Hawks!* remedies this by covering the fierce fighting experienced by the 365th Fighter Group from D-Day to VE Day.
- Covers heavy combat in support of Normandy invasion and the Battle of the Bulge.

## Terror of the Autumn Skies

The True Story of Frank Luke, America's Rogue Ace of World War I

Blaine Pardoe

Frantic, short, and splendid, the life of Frank Luke, Jr. dramatizes the tragic intervention of an American spirit in the war that devastated Europe. This book retraces and refreshes the story of this unlikely pilot who, during two torrid weeks in September 1918, was the deadliest man on the Western Front.

## Vintage Aircraft Nose Art

- Here is an unprecedented collection of the unique art that graced military aircraft in World War II and the Korean War.
- Applied by amateurs or professional artists like Vargas and Brinkman, the art typically featured alluring women whose charms belied the deadly cargo the crew hoped to deliver to its targets. Hundreds of examples are shown in a combination of archival photos from the wars and current photos of artwork in museum collections.
- Fully captioned with aircraft type and unit assignment.

"I found the book fascinating and fun to read, a break from the usual history of military types and their operational careers. It contains everything you could possibly want to know about owning and operating a DC-3, and probably a whole lot more. If you are interested in DC-3's, this is a good book to have. Highly recommended."

## Owners' Workshop Manual Boeing 747

1970 onwards (all marks)

Chris Wood

When the Boeing 747 first flew commercially in 1970, it ushered in a new era of affordable air travel. Often referred to by the nickname "Jumbo Jet," it was the world's first wide-body commercial airliner and a major milestone in aviation history. The centerpiece of this Haynes Manual is the bestselling 747-400, which is the model with the most currently in service.

## Flying Cars

The Extraordinary History of Cars Designed for Tomorrow's World

Patrick J. Gyger

Cars designed to be flown and aircraft designed to be driven have been created surprisingly often, particularly in the United States, where the unfettered optimism of the 1930s and 1950s allowed such fanciful ideas to flourish from time to time. This handsome book covers the subject in depth for the first time, revealing the stories of many doomed ventures, supported by a wealth of intriguing photography and artwork.

## Lockheed Constellation

Dominique Breffort

Designed just before World War II, the Lockheed Constellation is celebrated today as one of the finest flying machines ever built. As a civilian aircraft, it has been the first airliner able to cross the Atlantic Ocean non-stop, but it also has had a respectable military career, thanks to its brilliant characteristics which allowed it to fulfill missions of electronic warfare and AWACS.

"Are you looking for this year's biggest, shiniest coffee-table book about NASA's recently departed space shuttle fleet? Bizony's book is chock-full of pictures from each of the fleet's 135 missions, although the last one is represented only by a picture of Atlantis and its team during preparations for July's final flight. The text reviews 30 years of highs and lows for the shuttle program."

## U.S. Navy SEALs

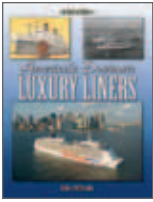

- Updated and expanded to include the bin Laden mission, operations in Afghanistan, and fighting pirates off Somalia.
- Special operations continues to be a hot topic.
- Previous editions have sold more than 24,000 copies.

"Hans Halberstadt has written extensively on U.S. special operations forces. A talented photographer, he took most of the photos in this book. *U.S. Navy SEALs* is a good overview of the Navy's special operations branch. It is a particularly good source of information on the organizations current-day training and equipment."

### Titanic Triumph and Tragedy

- Tourist dives, management takeover at RMS Titanic Inc, salvor-in-possession of wreck and artifacts, continuing exploration and documentation of the wreck by RMS Titanic, Inc., James Cameron, and others.
- Appeals Court ruling on ownership of artifacts, effectively blocking their sale including submissions to US Congress of enabling legislation for 'Titanic Maritime Memorial Preservation Act', setting standards for future artifact recovery.
- Since 1999, as investigations continue in their several guises, facts hitherto-unknown about Titanic appear, important details of older facts are added or modified. Additional pictures have emerged of recent and ongoing events, illustrating new aspects of the ship's story.

### Inferno

- The story of the Franklin is one of the most dramatic in naval history.
- Books like *In Harm's Way*, about the loss of the USS Indianapolis, show a strong market for this kind of sea story.
- Comprehensive research answers the lingering questions about the event.

## Infantry Attacks

Field Marshal Erwin Rommel and Manfred Rommel  
Field Marshal Erwin Rommel exerted influence over not only his troops, but also the Allied soldiers of the Eighth Army in World War II. In this 1935 title, he recalls his greatest battles, outlines how he won them, and provides his strategies on the use of armor in the field—lessons ultimately used by Patton and other Allied tank commanders to defeat him.

"There are few books that influenced my understanding of combat as much as German Field Marshal Erwin Rommel's memoir of being a young leader in World War I. Generations of soldiers read Rommel's book and employed his sober and successful tactics."

— *The Week*

See Page 27

### The Civil War Day By Day

- The Civil War's battles, politics, and people—all at a glance.
- Principal commanders and political figures, key technology, transportation, and weaponry, all receive due treatment.
- Goes beyond the major engagements of the war to cover lesser episodes and partisan activities, providing a reference that is at once fingertip-quick and comprehensive.

### Infantry Attacks

- Rommel is the most famous German general of World War II.
- Rommel's book is on the reading list of virtually every military college around the world.
- This is the only memoir of Rommel, who died during World War II.
- Shows how Rommel learned from his experiences in World War I as an infantry combat leader.

**Sherman Tank  
Owners' Workshop Manual**

- The M4 Sherman tank is the most important American tank of World War II.
- Hundreds of Shermans are in the collections of museums around the country, many of them in operational condition. There are also scores of operational Shermans in private collections.
- The Haynes "historical" owners manuals have proven very popular.

"There is no shortage of existing books on Civil War firearms, but Adler's is a beautiful addition. It should be welcome in all Civil War and firearm history collections as the sesquicentennial years of the war increase interest."  
— *Library Journal Xpress Reviews*

**Guns of the Civil War**

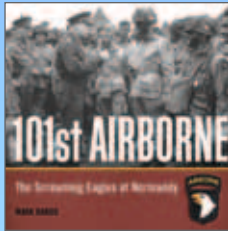

- There are 62 official Civil War Clubs across the United States, with more than 200,000 active members. Re-enactments dominate their activities. These events involve the entire family, including children.
- Coincides with a reissue of Ken Burns' Civil War PBS program, as well as Civil War—themed movies planned from Hollywood during the Civil War sesquicentennial years (2011-2015).

**The Complete Illustrated Manual of  
Handgun Skills**

- Interest in personal defense and availability of concealed carry permits at an all-time high.
- Springfield Armory alone sold 150,000 handguns last year, with each new handgun owner a potential customer for the book.
- Author Robert Campbell is a frequent contributor to *American Gunsmith*, *Gun Week*, *Gun Digest*, and several police and SWAT trade publications. His other books have received numerous positive reviews in publications such as these.

### Normandy

- As one of the most important events in the defining conflict of the last century, the epic history depicted in Normandy is constantly relevant to readers around the world.
- This is a serious book. Wayne's work has the level of details of a non-fiction print hardcover and will appeal to readers more interested in the detail of military history than fictionalized narratives.
- Besides the traditional bookstore market, Wayne has a following in the comic bookstore market. The library market has been one of the most receptive markets to graphic novels. Vansant's comics have been sold at National Historic Sites and *Normandy* would make an ideal product for any history museum or institution that touches on World War II.

### Battle for the City of the Dead

In the Shadow of the Golden Dome, Najaf, August 2004

Dick Camp

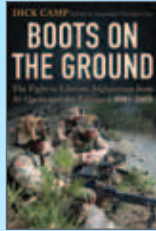

In August of 2004, a Shiite cleric named Muqtada Al-Sadr called upon the Mahdi Militia, to resist the American occupation in Iraq. This book chronicles the U.S. forces fight in 120-degree heat through a tangle of crypts, mausoleums, and graves.

### Noble Warrior

• Author is Medal of Honor winner.

• Vietnam service included combat during the period of the heaviest fighting of the war in 1967 and 1968.

• Author was personally involved in Operation Frequent Wind, the 1975 evacuation of Saigon.

"Marine leaders and those who seek to lead will surely benefit from this book. The often blunt, direct style is refreshing and makes it an easy read. The pearls of wisdom are there as is the dramatic battle leadership examples."
