With the zeal of a tent evangelist and the precision of a civil engineer, Bartholomew has preached his unorthodox Square Foot Gardening gospel in all corners of the world for more than 30 years. From Africa to South America to practically every Main Street in the USA he’s hopped onto his soapbox, adorned in famous straw Panama hat, and delivered the good news: If you follow his method you can grow more in less space. With well over two million copies of his Square Foot books in print, his message has found its audience.

Cool Springs Press is the leading publisher of step-by-step how-to books for both DIY gardening and home improvement. In 2013 Cool Springs published two of the best-selling gardening books, *All New Square Foot Gardening* and *Straw Bale Gardens*, which combined have sold over 80,000 copies. Both books, their authors, and their methods garnered much notice and attention from gardening media as well as TV and radio.

Our state and local gardening books are tailored to specific regional environments across the United States and authored by experts. The *Getting Started Garden Guide Series* include titles for individual states, giving plant recommendations and addressing all the gardening topics of concern to gardeners specific to where they live. The *Month-By-Month Gardening series* gives do-it-yourself gardeners expert advice on what they need to do each month to have a beautiful garden all year, for each individual gardening zone. These books and the authors are much in demand from regional publications and garden centers for their expert advice.

Cool Springs Press’ renowned series of foolproof home improvement books have long been trusted on both the bookshelf and the job site. These include titles under the trusted Black & Decker brand which include practical solutions and instructions for an array of different home projects, from finishing a basement to customizing cabinetry and countertops. The new *HomeSkills* series of books are perfect for everyone looking for comprehensive, low-price guides to specific home improvement projects. The *HomeSkills* series covers carpentry, landscaping, plumbing, wiring, ceramic tile, and building decks, with each book featuring step-by-step instructions and color photographs.

Is Mel Bartholomew America’s most influential gardener?

Getting Started Garden Guide Series

A region-specific guide to ornamental plants for novice and experienced gardeners alike

- Each guide contains step-by-step, region-specific advice on planting, growing and caring for over 150 ornamental plants
- Written by highly respected gardening experts from each state or region
- Includes topics of concern for each individual region, such as choosing the right plants; how, when and where to plant; soil and water growing tips and routine care; pest management; landscaping inspiration and more.
- Full-color images are shown for each plant profiled
- Several states and regions available

Month-By-Month™ Gardening Series

The how-to and when-to guide to gardening for each state or region

- Includes the latest techniques and in-depth information on proper care and timing in each of the more than ten plant categories
- More than 300 pages of timely tips to assure success in the garden
- Month-By-Month™ books are both two-color and four-color depending on state or region, with helpful how-to illustrations
- More than 30 states available.
Fruit & Vegetable Gardening Series

The most comprehensive guide to growing edibles for gardeners for each state or region.

• Vegetable gardening continues to be very popular, especially for new gardeners.
• A gardening book specifically featuring vegetables, fruits, and herbs is unique and addresses the variety of growing conditions across each state.
• Simple, easy-to-use format at an affordable price.
• Many other states and regions available.

Gardener’s Handbook Series

Everything the more advanced gardener wants to know, all in one book for each state or region.

• At a glance full-color photographs of the best plants and handy icons to aid plant selection decisions.
• More than 300 recommended plant selection for the region.
• Monthly to-do calendars assisting with proper care and timing for everything from planting to watering.
• Written by expert gardeners who live in the Region.
• Many other states and regions available.
The Backyard Guides series concisely celebrates those bird species living right under our very noses. Inside these portable guides, you’ll find profiles of the 55 most common birds in each region, complete with large color photos, gender-specific physical descriptions, nesting and feeding information, bird call particulars, and interesting stories about each species.

Each book also introduces the reader to the basics of bird watching—essential gear, bird-friendly food and plantings, housing tips, and observational techniques—making these the perfect no-nonsense, no-fluff quick guides to the birds you see every day.
