### Cabin Fever: A Suburban Father's Search for the Wild

*Cabin Fever* might be described as a modern *Walden*, if you can imagine Thoreau married, with a job, three kids, and a minivan. A seasonal memoir written alternately from a little cabin in the Michigan woods and a house in suburban Chicago, the book engages readers in a serious yet irreverent conversation about Thoreau's relevance in the modern age.

The author turns Thoreau's immortal statement "I went to the woods because I wished to live deliberately" on its head with the phrase "I got ..."

### Billionaires' Ball: Gluttony and Hubris in an Age of Epic Inequality

The concentration of wealth today in such a small number of hands inevitably created a dynamic that led to freewheeling financial speculation—a dynamic that produced similarly disastrous results in the last great age of inequality, in the 1920s. Such concentrated economic power reverberates throughout society, threatening the quality of life and the very functioning of democracy. As McQuaig and Brooks illustrate, it's no accident that the United States claims the most billionaires but s...
