Summary: This shattering memoir by a journalist about his father's attempt to survive the aftermath of Auschwitz in a small industrial town in Sweden won the prestigious August Prize

On August 2, 1947 a young man gets off a train in a small Swedish town to begin his life anew. Having endured the ghetto of Lodz, the death camp at Auschwitz-Birkenau, the slave camps and transports during the final months of Nazi Germany, his final challenge is to survive the survival.

In this intelligent and deeply...

Summary: Originally published in 1932 and banned by the Nazis one year later, *Blood Brothers* follows a gang of young boys bound together by unwritten rules and mutual loyalty.

Blood Brothers is the only known novel by German social worker and journalist Ernst Haffner, of whom nearly all traces were lost during the course of World War II. Told in stark, unsparing detail, Haffner's story delves into the illicit underworld of Berlin on the eve of Hitler's rise to power, describing how these blood br...

Summary: A distinguished anthropologist tells his life story as a wistful novelist would, watching himself as if he were someone else

This memoir recaptures meaningful moments from the author's life: as his childhood on the grounds of a psychiatric hospital, his psychiatrist father's early death, his years at school in Switzerland and then at Harvard in the 1960s, his love affairs, his own teaching, and his far-flung travels. Taken together, these stories have the power of a nothing-taken-for-gra...

Summary: Histories of modern art are typically centered in Paris and New York. Los Angeles is relegated to its role as the center of popular culture— a city of movie stars, tan lines, and surfers—but lacking the highbrow credentials of the chosen places. Until 1965, there was no art museum, few notable collectors, and—especially in terms of modern and contemporary work—even fewer galleries. Yet in the 1950s and 1960s, L.A. witnessed a burst of artistic energy and invention rivaling New York's bu...

Summary: Cambodia, 1955. The country is on the brink of a major change, with the first democratic elections just around the corner. In the midst of the frenzy, we meet Sar-a quiet, likeable man in his early thirties who is campaigning for the opposition, but secretly working for an armed Communist takeover. Many years later, he will become known to the world as Pol Pot.

Now, Sar is thinking about Somaly, the woman he is engaged to be married to and wants to build a life with. The outcome of the ...

Summary: *While the Gods Were Sleeping* is a novel about the magnitude and impact of the First World War, the recollections of which are recorded in the notebooks of the elderly Helena. The young Helena is sent to her uncle's country house before the war, and from here she witnesses scenes of indescribable horror. But it is also where she meets Matthew again, a British Army photographer who she goes on to marry. This is a story not about spectacular events; rather, Mortier is concerned with writin...

Summary: The young intellectuals J. and Elena leave behind their comfortable lives, the parties and the money in Medellín to settle down on a remote island. Their plan is to lead the Good Life, self-sufficient and close to nature. But from the very start, each day brings small defeats and imperceptible dramas, which gradually turn paradise into hell, as their surroundings inexorably claim back every inch of the 'civilisation' they brought with them. Based on a true story, *In the Beginning Was th...*

Summary: A master forger lives in obscurity and disappointment, oppressed by the shadow of the artist whose work he copies. Unglamorous, unadorned lives such as this form the focus of Yasushi Inoue's tenderly observed, elegantly distilled short stories - two of which are appearing in English for the first time. With a haunting emotional intensity, they offer glimpses of love lost and lives wasted.

These three luminous, compassionate tales showcase the mastery and exquisite talent of one of Japan...

Contributor Bio:

Born in 1907, Yasushi Inoue worked as a journalist and literary editor for many years, only beginning his prolific career as an author in 1949 with *Bullfight*. He went on to publish 50 novels and 150 short stories, both historical and contemporary, his work making him one of Japan's major literary figures. In 1976 Inoue was presented with the Order of Culture, the highest honour granted for artistic merit in Japan. He died in 1991.

Summary: A millionaire is killed. A golden statuette of a Buddha goes missing. A penniless student, who is afflicted by dream-like fits, is arrested and accused of murder.

In typically crisp, unfussy prose, Gazdanov's delicately balanced novel is an irresistibly hypnotic masterpiece from one of Russia's most talented émigré writers. Summary: Based on Babel's own diaries that he wrote during the Russo-Polish war of 1920, *Red Cavalry* is a lyrical, unflinching and often startlingly ironic depiction of the violence and horrors of war. A classic of modern fiction, the short stories are as powerful today as they were when they burst onto the Russian literary landscape nearly a century ago. The narrator, a Russian-Jewish intellectual, struggles with the tensions of his dual identity: fact blends with fiction; the coarse language ...

Summary: Horiot offers not only a literary and startling testimony of autism, but also a striking portrayal of the human condition.

Hugo Horiot was an angry autistic child with Asperger syndrome who refused to speak for the first years of his life and only escaped institutionalization because his mother decided, controversially, to educate and care for him herself. Today, the storm of autism has passed and Hugo has become a peaceful and highly functioning adult.

In this book, he now returns to hi...

Summary: The prescient but ignored letters of warning and advice sent to Presidents Bush and Obama by Ralph Nader, America's foremost consumer advocate, grassroots activist, and third-party leader.

In letters addressed to Presidents George Bush and Barack Obama, Ralph Nader provides incisive critiques of more than a decade of American policy decision and indecision. Each letter offers frank advice and shines light on government mishaps and missed opportunities for progress. With his signature dry...

Summary: This intimate journey through long-term depression is by turns tender, funny, poignant, and uplifting. Swados' charming words and frenzied drawings bring home the experience of severe depression, from the black cloud forming on the horizon to feelings of self-loathing and loss of self-confidence; from contemplating suicide, which Swados describes as wandering off into the Sahara desert (discounting the buzzards and the scorpions), to actively seeking out methods for fighting depression—...

Summary: The novel of an unconventional childhood in the seventies by one of the most talked-about writers of new Mexican fiction.

From a psychoanalyst's couch, the narrator looks back on her bizarre childhood—in which she was born with a birth defect into a family intent on fixing it—having somehow survived the emotional havoc she went through. And survive she did, but not unscathed. This intimate narrative echoes the voice of the narrator's younger self: a sharp, sensitive girl who is keen to ...

Summary: An exposé of Alcoholics Anonymous, 12-step programs, and the rehab industry—and how a failed addiction-treatment model came to dominate America.

AA has become so infused in our society that it is practically synonymous with addiction recovery. Yet the evidence shows that AA has only a 5–10 percent success rate—hardly better than no treatment at all. Despite this, doctors, employers, and judges regularly refer addicted people to treatment programs and rehab facilities based on the 12-s...

Summary: A provocative exploration of the "new ecology" and why most of what we think we know about alien species is wrong

For a long time veteran environmental journalist Fred Pearce thought in stark terms about invasive species: they were the evil interlopers spoiling pristine "natural" ecosystems. Most conservationists and environmentalists share this view. But what if the traditional view of ecology is wrong—what if true environmentalists should be applauding the invaders?

Summary: This maritime history “from below” exposes the history-making power of common sailors, slaves, pirates, and other outlaws at sea in the era of the tall ship.

In *Outlaws of the Atlantic*, award-winning historian Marcus Rediker turns maritime history upside down. He explores the dramatic world of maritime adventure, not from the perspective of admirals, merchants, and nation-states but from the viewpoint of commoners—sailors, slaves, indentured servants, pirates, and other outlaws from th...

Summary: Alfredo Gutierrez's father, a US citizen, was deported to Mexico from his Arizona hometown—the mining town where Alfredo grew up. This occurred during a wave of anti-immigrant hysteria stoked by the Great Depression, but as Gutierrez makes clear, in a book that is both a personal chronicle and a thought-provoking history, the war on Mexican immigrants has rarely abated. Barack Obama now presides over an immigration policy every inch the equal of Herbert Hoover's in its harshness.

Summary: Third volume of Jameson's magisterial project—the Poetics of Social Form

The Antinomies of Realism is a history of the nineteenth-century realist novel and its legacy told without a glimmer of nostalgia for artistic achievements that the movement of history makes it impossible to recreate. The works of Zola, Tolstoy, Pérez Galdós, and George Eliot are in the most profound sense inimitable, yet continue to dominate the novel form to this day. Novels to emerge since struggle to reconcile t...

Summary: Originally published in 1978, this book caused a storm of controversy as Michele Wallace blasted the masculinist bias of the black politics that emerged from the sixties. She described how women remained marginalized by the patriarchal culture of Black Power and the ways in which a genuine female subjectivity was blocked by the traditional myths of black womanhood. In 1990 the author added a new introduction examining the debate the book had sparked between intellectuals and political l...

Summary: What is at stake when some American children go to school hungry and others go to school in \$1,000 Bugaboo strollers? *Class War* argues that under free market capitalism, life paths prescribed by class but framed as parental choices—public or private? Gifted & Talented, general or special education?—segregate American children from birth through adolescence, and into adulthood, as never before.

In an age of austerity, an elite class of corporate education reformers has found new ways to ...

Summary: The centenary of the outbreak of the First World War may be commemorated by some as a great moment of national history. But the standard history of Britain's choice for war is far from the truth. Using a wide range of sources, including the personal papers of many of the key figures, some for the first time, historian Douglas Newton presents a new, dramatic narrative. He interleaves the story of those pressing for a choice for war with the story of those resisting Britain's descent into...

Summary: Mythmaking is as central to sustaining our present economy as profit-making. In the 1980s, Thatcher and Reagan's stories about welfare queens, greedy workers and the beauty of the free market cleared the way for an assault on organized labor that led to the boom times of the 1990s. With severe environmental degradation, breathtaking inequality, lousy job prospects and increasing alienation among youth today, capitalism would seem to have come up against its own contradictions.

Most educated people today would say yes. In *A Philosophy of Walking*, a bestseller in France, leading thinker Frédéric Gros charts the many different ways we get from A to B — the pilgrimage, the promenade, the protest march, the nature ramble — and reveals what they say about us.

Gros draws attention to other thinkers who also saw walking as something central to their practice. On his travels he ponders Thoreau's eager seclusion in Walden Woods; the reason R...

Summary: The oil industry provides the lifeblood of modern civilization, and bestselling books have been written about the industry and even individual companies in it, like ExxonMobil. But the modern oil industry is an amazingly shady meeting ground of fixers, gangsters, dictators, competing governments, and multinational corporations, and until now, no book has set out to tell the story of this largely hidden world.

The global fleet of some 11,000 tankers—that's tripled during the past decade—m...

Summary: "We know that communism is the right hypothesis. All those who abandon this hypothesis immediately resign themselves to the market economy, to parliamentary democracy—the form of state suited to capitalism—and to the inevitable and 'natural' character of the most monstrous inequalities."—Alain Badiou

Alain Badiou's "communist hypothesis," first stated in 2008, cut through the cant and compromises of the past twenty years to reconceptualize the Left. The hypothesis is a fresh demand for ...

Summary: When Jeremy Bentham proposed that government should run "for the greatest benefit of the greatest number," he posed two problems: what is happiness and how can we measure it? With the rise of positive psychology, freakonomics, behavioural economics, endless TED talks, the happiness manifesto, the Happiness Index, the tyranny of customer service, the emergence of the quantified self movement, we have become a culture obsessed with measuring our supposed satisfaction.

In anecdotes that in...

Summary: The political ferment of the 1960s produced not only the Civil Rights Movement but others in its wake: women's liberation, gay rights, Chicano power, and the Asian American Movement. Here is a definitive history of the social and cultural movement that knit a hugely disparate and isolated set of communities into a political identity—and along the way created a racial group out of marginalized people who had been uncomfortably lumped together as Orientals.

The Asian American Movement was...

Summary: Stanley Donwood and the enigmatic Dr Tchock are the elusive duo responsible for Radiohead's artwork. Containing paintings they have produced in the last decade, this book also contains a cornucopia of never-before-seen artwork. Featuring the apocalyptic scenes of the *OK Computer* album, the startling, sinister shadow of memory cast onto the present in the *Kid A* paintings, and the overwhelming information overload of *Hail to the Thief's* landscapes of conflict, *Dead Children Playing* presents...

Summary: What are the origins of human rights? This question, rarely asked before the end of the Cold War, has in recent years become a major focus of historical and ideological strife. In this sequence of reflective and critical studies, Samuel Moyn engages with some of the leading interpreters of human rights, thinkers who have been creating a field from scratch without due reflection on the local and temporal contexts of the stories they are telling.

Having staked out his own claims about th...

Summary: A brilliant novel about memory, love and the clash between the old world and the new, set in 1950s Spain.

In 1957, burned out journalist John leaves London to recover in the Andalusian idyll of Benalamar. Here he finds a village that has not changed since the Civil War, but when a foreign businessman Bob comes with plans to develop the area, the community it sent into turmoil. As a time of drought threatens, Bob promises to build a reservoir but this has unforeseen consequences. When a l...

Summary: When the wind of the 1960s blew through world of psychiatry

Asylums incarcerate the "mad" and exclude them from society. Gorizia, a grim mental asylum, right on the edge of Italy, miles from anywhere, was no exception. Yet, when a new Director was appointed in 1961, everything changed.

Drawing on the writings of Erving Goffman and Michel Foucault, interested in experimental "therapeutic communities" in the UK, the work of Franz Fanon and the ideas linked to radical psychiatrists like Féli...

Summary: In one of the true classics of twentieth-century political economy, R. H. Tawney addresses the question of how religion has affected social and economic practices. He tracks the influence of religious thought on capitalist economy and ideology since the Middle Ages, shedding light on the question of why Christianity continues to exert a unique role in the marketplace. In so doing, the book offers an incisive analysis of the morals and mores of contemporary Western culture.

Summary: 2015 will be the Year of the Landmark: A celebration of the 50th anniversary of the passage of the Landmarks Law, which has shaped the face of New York City today.

The destruction of McKim Mead & White's monumental Penn Station in the mid-1960s was the catalyst for the adoption of the "Landmarks Law," which established the parameters for protecting and preserving buildings and places that represent New York City's cultural, social, economic, political, and architectural history. Today th...

Summary: An overview of 50 recent houses whose daring forms respond to challenging constraints, demonstrating Japan's enduring commitment to design innovation.

Japanese houses today have to contend with unique factors that condition their design, from tiny lots in crowded urban contexts to ever-present seismic threats. But their formal innovation and attention to materials, technology, and measures to coax in light and air while maintaining domestic privacy make them cutting-edge residences that ...

Summary: Nathalie Du Pasquier started drawing as soon as she met her husband George Sowden in 1979 in Milan. He was introduced to the world of design and shortly after, in 1981, she became a founding member of the iconic postmodern design movement Memphis. From 1981 to 1987 she didn't stop drawing. Every day she would draw a whole new modern world, from very small items like jewelry to entire cities. This world only existed in her head but would eventually be developed into real pieces for the M...

Summary: *Reflections from Hell* presents decades of Richard Lewis' "dark comedic premises," jokes and reflections that are fantastically illustrated by the remarkable art of Carl Titolo. Lewis recounts that he was "blown to smithereens" when introduced to the world of Carl Titolo. Titolo's visual interpretations of Richard Lewis' words create a humorous and compelling reflection on modern life and a compelling page turning knee slapper. Summary: A thought-provoking architectural monograph on one of the most renowned and original classicist practices today. Quinlan and Francis Terry Architects is a British firm that specializes in new Classical architecture. Their work is a delightful expression—in plaster and marble, in brick and wood, in stone—of exuberant timelessness, where fluted columns rise beside doorways to explode in Corinthian capitals of exquisite craftsmanship and structural integrity. Throughout the work, attention...

Summary: A glimpse inside the finest country houses of the Scottish Highlands. This book features breathtaking photographs of Scotland's most remarkable and romantic country houses. Built as seasonal homes, they range from picturesque cottages ornées and Scotch baronial castles inspired by Queen Victoria's Balmoral to Arts and Crafts mansions and modern fantasies set among wild mountains and remote glens. A strong element of the book is the shooting lodge, designed to accommodate parties of gues...

Summary: The definitive book on High Line art, the public art program on the High Line, one of the most popular destinations in New York City. High Art surveys the first five years of art on the High Line, the unique elevated park in New York City created through the repurposing of an abandoned railway line. Since 2009, when the High Line was opened to the public, nineteen million visitors have been witness to more than 100 public art projects animating the grounds of this unique "park in the sk..."

Summary: A new survey of the masterworks of Frida Kahlo and Diego Rivera, set against the backdrop of Mexican Modernism. Few artists have captured the public's imagination with the force of Frida Kahlo and Diego Rivera. Icons respectively of surrealism and the Mural Movement, their work reflected their immersion in indigenous Mexican culture while looking ahead to progressive ideals and wielding a defining influence on Mexican Modernism. Brought together for a unique exhibition at the Museum of ...

Summary: Oxyrhynchus is a city in upper Egypt that was established in 332 BC and is considered one of the most important archaeological sites ever discovered. Saville references the layer upon layer of discoveries at Oxyrhynchus in her new body of work, the final effect being a mysterious narrative of layered bodies and images. The dozen new works presented are a combination of oil, charcoal, and pastel on canvas and a combination of landscape and figures weaving throughout each other.

Summary: Thomas Ruff is acknowledged as a leading innovator in the generation of German artists that propelled photography into mainstream art. For more than two decades, he has pushed the limits of the photographic medium, harnessing technologies both old and new. Traditionally, photograms are made by placing objects onto photosensitive paper and exposing the paper to light, thereby recording the silhouettes of the objects. Captivated by this method but seeking to work beyond its limitations, R...

Summary: This groundbreaking survey introduces twenty emerging talents from the Chinese contemporary art scene. While the generation of artists who came of age during China's Cultural Revolution dominated the market in the 2000s, younger artists are now gaining international attention. After a decade of underground art development, often experimenting with cutting-edge technologies, the experiences of this new generation are more rooted in the daily and inherent competition of urban life and the...

Summary: The first monograph bringing together all the projects of this now leading architectural firm. 5+1 Architetti Associati was founded in Genoa in 1995. Having gradually built up an interdisciplinary team around the central importance of the project, this architecture practice faces the challenges of the city—its obsolescence and renewed vitality—by tackling the transformation of the real. This involves pursuing unusual actions such as dialoguing with the banal and the ugly or exploring th...

Summary: A potentially life-changing book for anyone wanting to experience grief and death in a more meaningful way. Grounded in the author’s experiences with hundreds of dying people and their families, the book advocates a bold engagement with a part of the human experience that is often more endured than lived. In its own unique way, *Die Wise* is more about living than dying.

After two decades in palliative care, Stephen Jenkinson came to a stunning conclusion: as a culture and a species, we ar...

Summary: Crisp collection of poetry by the poet Steve Luttrell, exponent of the Black Mountain school and the Beats.

The poems in Steve Luttrell's *Plumb Line* capture quiet moments of observation, evoking a sense of place and presence in the moment. The language is sparse; the words land on the page—and on the ear—with an easy cadence. Personal, intimate, and yet approachable to all, Luttrell's poetry evokes the Beats, but his voice and his craft are unique and fresh.

Summary: Five noble war heroes of Vagandrak get drunk one night and sign a contract – to journey to the Karamakkos in search of the Five Havens where, it is written, there is untold, abandoned wealth and, more importantly, the three Dragon Heads – jewels claimed to give unspeakable power and everlasting life to those who wield them.

But the Dragon Heads aren't what they think, and the world has not encountered their like in generations!

Think Smaug was fierce? You ain't seen nothing!
