Quiet Beauty

The Japanese Gardens of North America

Kendall H. Brown

David M. Cobb, photographer

The Japanese garden is an evocative phrase bringing to mind the serenity and contemplation that are integral parts of Japan's traditional gardens. These exquisite gardens are not limited just to Japan—there is in fact a strong and enduring history of the Japanese garden in the West. These gardens have been a part of North American culture for nearly 150 years, with Western gardeners and museums collaborating with Japanese garden designers to create something true to the history of the Japanese garden while also allowing for the differences in landscapes, flora and fauna found in North America.

Featuring twenty-six gardens, with numerous stunning color photographs of each that details their style, history and special functions, *Quiet Beauty* explores the ingenuity and range of Japanese landscaping.

Gardens include:

- Japanese Tea Garden in Golden Gate Park, San Francisco, California, 1894
- Nitobe Memorial Garden, University of British Columbia, Vancouver, British Columbia, 1960
- Japanese Garden, Fort Worth Botanic Garden, Texas, 1973
- Garden of the Pine Winds, Denver Botanic Garden, Colorado, 1979
- Tenshin'en (The Garden of the Heart of Heaven), Museum of Fine Arts, Boston, Massachusetts, 1988
- Roji'en (Garden of Drops of Dew), The George D. and Harriet W. Cornell Japanese Gardens, The Morikami Museum and Japanese Gardens, Delray Beach, Florida, 2001

Kendall H. Brown is Professor of Asian Art History in the Art Department at California State University Long Beach. Dr. Brown publishes actively in several areas of Japanese art. He is a leading figure in the study of Japanese gardens in North America, and author of *Japanese-Style Gardens of the Pacific West Coast*.

David M. Cobb is a member of NANPA (North American Nature Photography Association), PPA (Professional Photographers of America), and GWA (Garden Writers Association). He lives in the Pacific Northwest with his wife and their two cats.

Infinite Spaces

The Art and Wisdom of the Japanese Garden

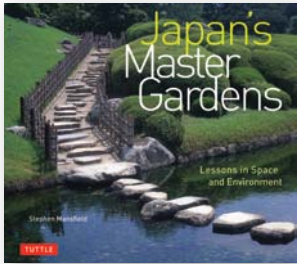

Julie Moir Messervy, introduction

Joe Earle, editor

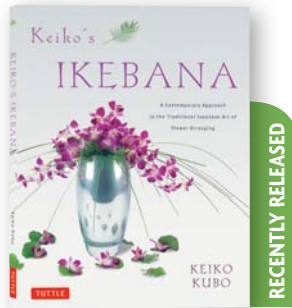

Sadao Hibi, photographer

Japanese gardens have long been admired for their capacity to improve on nature through impeccable design, detail and composition, properties that elevate them from mere gardens to sacred spaces. *Infinite Spaces* is a remarkable reflection of the Japanese garden, drawing on extracts from the *Sakuteiki*—an eleventh-century text that distills centuries of garden design—and pairing them with inspiring images from Sadao Hibi, one of Japan's best-known photographers.

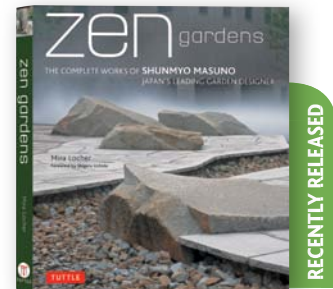

Joe Earle is the Former Keeper of the Far Eastern Department of London's Victoria and Albert Museum and has published extensively on traditional and contemporary Japanese art and culture.

Chinese Fables

The Dragon Slayer and Other Timeless Tales of Wisdom

Shiho S. Nunes
Lak-Khee Tay-Audouard

For thousands of years, Chinese storytellers have delighted listeners with tales about the value of virtues like honesty, respect, courage and self-reliance. *Chinese Fables* collects nineteen of these wonderful tales, some of them dating back to the third century BCE, and retells them in contemporary English for a modern audience.

Each of these stories offers a nugget of ancient folk wisdom and shares aspects of Chinese culture and lore. All of the tales express the foibles and wisdom of human experience with great humor and affection. And although the lessons are universal, the wit and flavor are uniquely Chinese.

Beautifully illustrated by a master Chinese artist using a patchwork of ancient tones and textures, with a deft touch of humor, this book will give great joy to children and adults alike.

Stories include:

- The Practical Bride
- Stealing the Bell
- Kwan Yin, the Goddess of Mercy
- Cooking the Duck
- Scaring the Tigers
- The Dragon Slayer

Shiho Nunes is a passionate educator who has authored Hawaiian culture-based novels for young adults, as well as *The Shishu Ladies of Hilo: Japanese Embroidery in Hawaii*. She lives in Berkeley, California.

The Snake Goddess Colors the World

A Chinese Tale Told in English and Chinese

Li Jian

Long long ago, the world was a colorless, gray place. It had stayed that way for thousands of years. People never expected anything different until one day, the colorful Snake Goddess, Nuwa, fell from the sky. She was determined to bring color and beauty to the gray nothingness of the earth, but all the colors kept running out through a giant hole in the sky. To fix the hole and bring color to the world, Nuwa would have to journey near and far to find the five magical colored stones that were her only hope for fixing the sky. Join the Snake Goddess on her journey to bring color to a desolate world.

Li Jian graduated from Hebei Normal University in 2001, majoring in Chinese Painting. Mr. Li used to be a middle school art teacher, an editor for children's books, and a partner in an illustration studio. Currently Mr. Li owns his own studio focusing on illustrations for children's fairy tales. He has also published *The Water Dragon* and *The Little Monkey King's Journey*.

The glossy, custom-patterned folding sheets are all preprinted with guidelines for easy, foolproof folding.

Creativity doesn't get any easier or more fun than this. So invite your friends over, open up the box, and have a blast!

Michael LaFosse's Origami Butterflies

Elegant Designs from a Master Folder

Michael G. LaFosse
Richard L. Alexander

Whimsical, exquisite and fragile, butterflies and moths have enchanted and inspired for centuries. Origami artist Michael G. LaFosse is no different. His original butterfly paper-folding techniques are a dramatic new development in origami—which some have hailed as the most important advance in origami since the first paper cranes appeared centuries ago. Hundreds of LaFosse butterflies have been featured in exhibitions around the world and his iconic designs are now eagerly sought and widely imitated by folding enthusiasts everywhere.

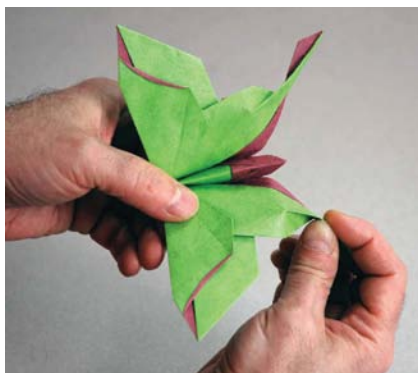

Michael LaFosse's Origami Butterflies presents 26 original projects from LaFosse's extensive butterfly and moth repertoire. This collection has many rarely-seen designs that have never been published before. These elegant forms—each created from a single square sheet of paper without cutting or glue—showcase the versatility of the folding system. All are deceptively simple, yet provide a solid foundation for creative flights of fancy in the hands of an experienced folder. Clear step-by-step instructions show you how to make literally hundreds of different variations by making small adjustments in a few key folds! Whether dry-folded from recycled candy wrappers or wet-folded from expensive handmade papers, these designs exemplify the best aspects of the paper folder's art today.

Butterflies include:

- A Butterfly for Vanessa Gould
- The Butterfly for Robert Lang
- A Butterfly for Eric Joisel
- A Swallowtail for Guy Kawasaki
- The Boston Butterfly
- The Mudarri Luna Moth

Michael G. LaFosse has been an origami artist for decades. An avid teacher, LaFosse co-founded the Origamido Studio in Haverhill, MA, and co-curated *Origami Now!*, a wildly popular, year-long exhibition at the Peabody Essex Museum in Salem, Massachusetts. He was also prominently featured in the recent, Peabody Award-winning film, *Between the Folds*, by Vanessa Gould.

Richard L. Alexander co-founded the Origamido Studio with Michael G. LaFosse in 1996. He has been the chief papermaker since 2003, and is a frequent collaborator with other famous paper artists. Together, Alexander and LaFosse have created dozens of origami exhibitions, and over 70 books, kits and videos about paper and paper arts.

My First Origami Kit

Joel Stern

My First Origami Kit is the perfect introduction to the joys of origami for kids of all ages. Featuring sheets of stickers along with folding paper, this kit is sure to keep them engaged and happy for hours!

Included are whimsical origami penguins, foxes, pigs, airplanes and more—even a cute teddy bear that "talks" when you open and close its arms. All of the papers are colorfully decorated on both sides with a different design for each of the 22 models! There are feathers for the duck, metal plates for the airplane, scales for the cobra, and so on. In most cases, it doesn't even matter which side of the paper kids use—they'll still end up with a great-looking model!

Kids will love to add sticker details to their models—eyes, noses, paws, and many other cute features. They can make the finished models look as silly or as serious as they want. Your child will proudly display the finished handiwork—their very first origami!

Projects include:

- Diablo the Cobra
- Clarence the Mouse
- Magic Box
- Barkley the Sea Lion
- Edward Elephant
- Cootie Catcher
- Soaring Sam

Joel Stern has enjoyed origami since his childhood. A native of Omaha, Nebraska, he has conducted many origami workshops for all ages in camps, schools, community centers, and libraries. Joel is also the author of *Origami Games*, *Animated Origami Faces*, *Jewish Holiday Origami*, as well as *Washington Pops!*, a collection of do-it-yourself pop-up cards of famous buildings in Washington, D.C. His origami and pop-up creations have been exhibited in the U.S., Japan, and Israel.

Incredible aerodynamic models sure to turn heads—and maybe break records!

Creative Beaded Jewelry

33 Exquisite Designs Inspired by the Arts of China, Japan, India and Tibet

Carolyn Schulz

Creative Beaded Jewelry celebrates the art of the East with stunning beaded jewelry in many shapes, sizes and materials. Longtime jewelry veteran Carolyn Schulz shares great ideas sparked by things Asian, such as the springy patterns of kimono fabrics, rich red and gleaming black Chinese lacquerware, and antique Asian coins with a touch of patina.

In this book, 33 projects using basic stringing materials (chain, beading wire, memory wire, stretch cord and cotton cord) show how mastering a few simple techniques and combining them with the right beads can result in gorgeous pieces range from strong to subtle. Colorful bracelets embellished with Chinese floral and butterfly motifs, a gold-and-pearl lariat inspired by the fringe of an Indian carpet, and a stunning Shamballa bracelet are just a few of the pieces you'll learn to make.

Detailed instructions and diagrams are easy enough for novices to follow, and beaders at all levels will be inspired by so many deceptively easy and inexpensively made pieces, most of which utilize materials that can be found in any craft store. Stunning color photos help your own ideas flow, and prove how simple techniques and materials can yield beautiful results. Put the world on a string with *Creative Beaded Jewelry!*

Carolyn Schulz is a freelance crafter, designer and entrepreneur who has over 30 years' experience creating beaded jewelry for the US and UK markets. She has edited three popular magazines, and has authored titles on scrapbooking and wire working. Her website Carolyn Schulz Creative Jewellery (www.CarolySchulz.com) shares inspiration and techniques for making beautiful pieces in the latest styles and materials.

The Adobo Road Cookbook

A Filipino Food Journey—from Food Blog, to Food Truck, and Beyond

Marvin Gapultos

In his debut cookbook, Marvin demonstrates that Filipino cuisine can be prepared in any kitchen—from Manila to New York to Los Angeles and everywhere in-between. Marvin interprets traditional Filipino flavors with equal parts kitchen savvy and street smarts, providing easy-to-follow, tried-and-true recipes that serve as a guide to the pleasures of Filipino cooking. The nearly 100 recipes in these pages pave a culinary road trip that transports home cooks to the roadside food stalls, bars and home kitchens of the Philippines, to the hungry streets of L.A., and even into the sage kitchens of Marvin's own grandmother, mother and aunts.

The Adobo Road Cookbook boasts a tantalizing mix of native Filipino flavors, as well as influences from Spain, Mexico, China, and the U.S. From chapters featuring surefire entertaining foods like Filipino bar food, street food and cocktails to a complete section of adobo recipes, both traditional and with a twist, the recipes found in *The Adobo Road Cookbook* express Marvin's unique approach to traditional Filipino cooking. All of his recipes emphasize their authentic Filipino roots, taking advantage of traditional island flavors for which the Philippines is rightly renowned.

Recipes include:

- Slow-Braised Pork Belly and Pineapple Adobo
- Spicy Sizzling Pork (Sisig)
- Salmon and Miso Sour Soup (Sinigang)
- Chili Crab Spring Rolls (Lumpia)
- Coconut Milk Risotto with Kabocha Squash and Long Beans
- Chicken Adobo Pot Pies
- Sweet Corn and Coconut Milk Panna Cotta
- Spicy Sizzling Pork
- Banana-Nut Spring Rolls

Marvin Gapultos is the writer of the food blog, *Burnt Lumpia*, and was the founder of Los Angeles' first gourmet Filipino food truck, *The Manila Machine*. Due to his contemporary take on traditional Filipino food, *The Manila Machine* gained both a loyal following and critical acclaim, with Marvin developing the menu and cooking the food. A sought-after expert and authority on Filipino cuisine, Marvin now spends his time as a food and marketing writer. He lives with his wife and son in Southern California.

The 30 Day Guide to Paleo Cooking

Entire Month of Paleo Meals

Hayley Mason
Bill Staley

It can be pretty overwhelming to make a significant lifestyle change. For most people who take on the Paleo diet, their biggest concern is the question of "What will I eat?" Even when you understand which foods you can enjoy, and which foods you should avoid, the task of actually planning, shopping for, and cooking your meals can still be very confronting. To streamline this aspect of committing to eating Paleo, Bill and Hayley have created *The 30 Day Guide to Paleo Cooking*. In this book, Bill and Hayley guide you step-by-step through your first month of following the Paleo diet.

For your first 30 days of eating Paleo, this book includes a complete meal plan broken down week by week. In each week, they provide a detailed schedule of the meals to make, shopping lists that go along with the meal plan, and recommended reading to expand your knowledge of this lifestyle beyond the basics. They cover everything you need to know to have an understanding of why this way of eating is perfect for optimal health. We are all designed to be fit, healthy and happy people, and following the Paleo diet is a solid foundation for a happy, healthy life.

Hayley Mason was quick to become one of the most acclaimed culinary forces driving the grain free cooking movement. Her practical, efficient and methodical cooking style shows that delicious grain free eating can be easily attained by anyone. Her holistic approach to health, wellness and nutrition is a common thread that weaves its way through every recipe she creates.

Bill Staley brings a decade of experience in graphic design, photography, and various other artistic pursuits to the kitchen and behind the camera lens. What started as a casual blogging hobby for Bill and Hayley quickly grew into a bustling website, followed by a cookbook, and now has grown to an interactive website with a meal planner, customized user-created shopping lists, and even a companion app for smart phones.

Gather

The Art of Paleo Entertaining

Hayley Mason
Bill Staley

There are few joys in life quite like gathering friends and family around the table for a special meal. One of the best parts of making good food is being able to share it with others. With a little bit of thoughtful planning, it can be effortless to entertain your guests and host an incredible meal. However, the true art of paleo entertaining is creating a delicious and satisfying menu that will also promote good health. In *Gather: The Art of Paleo Entertaining*, Hayley and Bill show you how to orchestrate the perfect dinner party—whether you are planning an elegant holiday feast or hosting a casual brunch with friends.

With sixteen creative occasions for gathering, this book acts as your guide to planning any type of menu. Each spread lays out the essential ingredients for success: carefully selected dishes, photos of each recipe, shopping lists for the meal, and even tips to streamline your meal preparations. Regardless of your skill level in the kitchen, *Gather* brings all of the planning elements together to make entertaining fun, relaxing, and most importantly: delicious!

Hayley Mason, a high definition makeup artist trained in Hollywood, never thought she would be applying her styling talents to grass fed beef and grain free desserts rather than the eyes and cheek bones of movie stars. Her practical, efficient and methodical cooking style shows that delicious grain free eating can be easily attained by anyone and leave you feeling as if nothing is missing from your plate. She is the co-author of *Make it Paleo*.

Bill Staley, a landscape architect and life long artist, grew up with a passion for great food and creating things with his hands. Drawing upon a decade of experience in graphic design, photography, and various other artistic pursuits, Bill flexes his creativity in the kitchen behind the camera lens. He is the co-author of *Make it Paleo*.

The Steampunk Tarot

Wisdom From the Gods of the Machine

John Matthews
Caitlin Matthews
Wil Kinghan, illustrator

Tumble down the rabbit hole into a place of technology, machines, retro-art and culture, full of fantastic visions in a time that realizes an alternate world to our own. The world of steampunk combines Victoriana, the Gothic, and early invention with a huge dash of imagination and a tremendous sense of style. *The Steampunk Tarot* reflects this world in 78 scenes, imagining the 22 major arcana cards as the actors at the heart of the machine; the 16 court cards who are ambassadorial representatives of the Four Leagues; and the 40 cards of the minor arcana, who are the elemental worlds of Airships, Engines, Submersibles and Gears, or Swords, Wands, Cups and Coins.

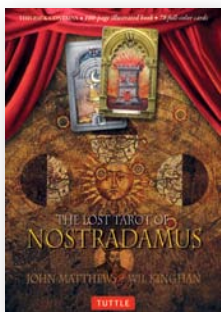

The Steampunk Tarot is an adventurous tarot for the discerning diviner, to be appreciated both by tarot-users and steampunk fans the world over.

John Matthews has produced a number of successful divinatory systems based on early spiritual beliefs—including the best selling *Arthurian Tarot* and the recent, highly successful *Grail Tarot*. His book *Pirates* was No 1 in the *New York Times Review of Books*. He has acted as an advisor on several motion pictures, including Jerry Bruckheimer's *King Arthur*, and is currently engaged on several movie projects of his own.

Caitlin Matthews is the author of many successful tarots and oracles including *The Arthurian Tarot* and *The Celtic Wisdom Oracle*. She is acknowledged worldwide as a leading teacher in the Western esoteric traditions. She lives in Oxford. HallowQuest.org.uk

Wil Kinghan is a writer, artist and explorer of the Hermetic and Celtic traditions. He studied Archeology at University College Dublin, and Environmental Design at NCAD in the 1980s. He recently completed work on several writing and illustration projects including *The Shaman's Oracle* and *The Ancestor Oracle*. He is the author of *Where the Hazel Falls*.

Chinese Zen

A Path to Peace and Happiness

Wu Yansheng
Tony Blishen, translator

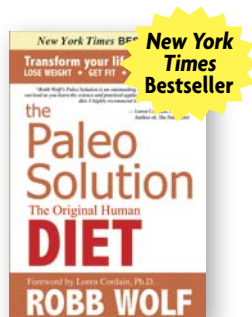

In *Chinese Zen*, Prof. Yansheng shows how Zen, with its universal concern for the human condition, can help the individual achieve happiness and spiritual stability through a "eureka moment" of enlightenment that liberates the mind from its world of competing interests.

By drawing on the vast literature of Chinese Zen Buddhism, Prof. Yansheng presents traditional Buddhist sayings, stories and dialogues that illustrate the way historical masters of Zen

sought to induce their pupils to reduced inner conflict. In so doing, he allows the reader a panoramic view of the origins and development of Zen Buddhism in China and demonstrates its influence on literature in particular.

Professor Wu Yansheng holds doctorates in literature and philosophy and is currently Director of the Institute of Buddhist Studies and professor and supervisor of doctoral candidates at Shaanxi Normal University. He is also editor-in-chief of *Chinese Zen Studies*.

The Peranakan Chinese Home

Art and Culture in Daily Life

Ronald G. Knapp
A. Chester Ong, photographer

Discover the rarified Peranakan (native-born Chinese of Southeast Asia) aesthetics that are today highly sought-after for their beauty. In *Peranakan Chinese Home*, the broad range of beautiful objects which the Peranakan Chinese created and enjoyed in their daily lives is astounding. Each chapter focuses on a different area, with each piece described in the context of their utility or important life passage rituals.

A fascinating mix of Chinese, European and Southeast Asian influences, the distinctly Peranakan identity of a people and their culture is beautifully portrayed through objects and archival photographs in this lovely and exotic book.

Ronald G. Knapp has been carrying out research in China since 1965. Currently SUNY Distinguished Professor Emeritus at the State University of New York, New Paltz, he is the author, contributing author, or editor of twenty books, including the award-winning *Chinese Houses*.

A. Chester Ong, born in the Philippines and currently based in Hong Kong, has photographed widely throughout Asia. His works appear in magazines, exhibitions, and books, including *China Modern*, *Chinese Houses*, *China Living* and *Chinese Houses of Southeast Asia*.

Just Enough

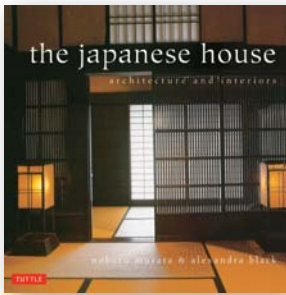

Lessons in Living Green From Traditional Japan

Azby Brown

The world has changed immeasurably over the last thirty years, with more, bigger, better being the common mantra. But in the midst of this constantly evolving world, there is a growing community of people who are looking at our history, searching for answers to issues that are faced everywhere, such as energy, water, materials, food and population crisis.

In *Just Enough*, author Azby Brown turned to the history of Japan, where he finds a number of lessons on living in a sustainable society that translate beyond place and time. This book of stories depicts vanished ways of life from the point of view of a contemporary observer, and presents a compelling argument around how to forge a society that is conservation-minded, waste-free, well-housed, well-fed and economically robust.

Azby Brown, a native of New Orleans, Louisiana is the director of KIT Future Design Institute in Tokyo. He studied architecture and sculpture at Yale College before entering the Department of Architecture of the University of Tokyo. He is the author of *The Genius of Japanese Carpentry* (1995), *Small Spaces* (1996), *The Japanese Dream House* (2001), and *The Very Small Home* (2005), all published by Kodansha International.

Wildlife Wonders of China

A Pictorial Journey Through the Lens of Conservationist Xi Zhinong

Xi Zhinong

China is a country rich in bio-diversity that boasts gorgeous natural landscapes and wildlife, many unique to its land. Award winning nature photographer Xi Zhinong spent 30 years taking photos along rivers and across mountains, capturing the animals and natural wonders of China. Through his lens, a Yunnan snub-nosed monkey can be seen jumping between trees with her baby in her arms; thousands of Tibetan antelopes migrate in the wind and snow; and a takin, or gnu goat, couple is caught sharing a kiss atop a mountain ridge.

Wildlife Wonders of China will lead you to the vast territory of China through photos, from the roof of the world—the Tibetan Plateau—to dry western China and the moist eastern lands influenced by monsoons. Gain insight into the changing environment in China, and be enchanted by the unique and beautiful animals living there.

Xi Zhinong is a renowned wildlife photographer, the founder of Wild China Film and a long time devotee to the photography and protection of Chinese wildlife. He is the first Chinese photographer to win the Gerald Durrell Award for Endangered Wildlife, and is the only Chinese photographer to be part of the International League of Conservation Photographers (ILCP). In 2002, his documentary 'Mystery of Yunnan Snub-Nosed Monkey' won the prestigious TVE Award at the 12th Wildscreen Film Festival in the UK. In 2010, he was named one of the 40 most influential conservation photographers in the world by the UK's *Outdoor Photography*.
