

# HOW TO SOLVE

Welcome to Murdle: Volume 1, the official publication of the casefiles of the world's greatest mystery-solving mind, Deductive Logico.

Unlike other memoirs of the crime-fighting life, these murdles are not mere tales, but puzzles for you to solve. And all you need to crack these cases is a sharp pencil and an even sharper mind.

To prove it, let's review Deductive Logico's very first case, which he cracked as a junior in Deductive College. The student body president had been murdered, and Logico was certain one of three people had done it:

**MAYOR HONEY**

He knows where the bodies are buried, and he makes sure they always vote for him.

**6'0" • LEFT-HANDED • HAZEL EYES • LIGHT BROWN HAIR**

**DEAN GLAUCOUS**

The dean of some such-and-such department at a massively funded research university. What does he do? Well, he handles the money, for one...

**5'6" • RIGHT-HANDED • LIGHT BROWN EYES • LIGHT BROWN HAIR**

**CHANCELLOR  
TUSCANY**

Chancellor Tuscany is the head of an elite (and very expensive) private university, and she is revered for her intelligence, social grace, and the fear she strikes in the hearts of her enemies.

**5'5" • LEFT-HANDED • GREEN EYES • BLOND HAIR**
